

Why was domestic interest much higher?

FY 2024/25 interest payments • KSh billion • provisional

The difference is consistent with the structure and pricing of the two portfolios:

1 STOCK SIZE

Domestic debt

KSh 6.326T

External debt

KSh 5.488T

2 AVERAGE RATE

Domestic debt

13.0%

External debt

3.9%

3 EXTERNAL PORTFOLIO MIX

Multilateral lenders accounted for 55.5% of external debt at June 2025.

These loans often have more favourable terms than standard market borrowing.

Caveat: principal repayments are not interest, and reported domestic principal excludes routine T-bill redemptions.
